"Prophecy Of The Evening Star"

From hells heart it is him
Evening star Lucifer, the light
Bringing strife and division
And a hatred of mankind

Blood vapour a mist upon the land
Tears boil in hellfire
Prayers to heaven, stopped by sword
Serpent shadow across the land

Centuries old stories of paradise lost
Rewritten by cloven hoof
A prophecy now reality
Eclipsed - the setting sun

Blood vapour a mist upon the land
Tears boil in hellfire
Prayers to heaven, stopped by sword
Serpent shadow across the land

Serpent shadow across the land
A prophecy - the setting sun
A mist across the land

From hells heart it is him
Evening star Lucifer, the light
Bringing strife and division
And a hatred of mankind

Blood vapour a mist upon the land
Tears boil in hellfire
Prayers to heaven, stopped by sword
Serpent shadow across the land
