Up for too long
At war with the sun
A crown of stars that we all wish upon
And you whisper to me
Are we out of time
And if so then don't let go.
Show me where teardrops run
Ragged bloom we all let loose on
Hands disappear, pull you close
Shoot out lights for all our pleasures

[chorus]

Young hearts know nothing but say it all
Celebrate no control
But is it enough to realize your love
And miss us when we're gone.

Live for the words
That we've sung
And don't let go

No one hears 'cause no one cares
Until we fall over the edge
Surrender your thoughts
The odd ones out
And I said we'd meet tonight

Into the dark, and out of this world
Blow a kiss and burn it down
Together we'll live, turn to dust
Through the smoke and into the sun

[chorus]

To feel it
See it
On it
I'm on it

[chorus]
