We all live
Somewhere near nowhere
On dusty roads there
All soft and free
You said I feel no pain
Where are you going
With number nothing
Unnaturally

It's the feeling that you can't be lost
It's another that you can't explain
It pulls on strings like falling in love
Instant love, instant love

Only you asked to go lower
And don't you just know it
Dead fingers falls

A star fades out of my heart
But you laughed and just rolled and rolled over
Everything slowly goes
You said you knew and that's what you wanted

If time gone is history
Then this is a victory
A victory worth losing for you
And all you need

It's the feeling that you can't be lost
It's another that you can't explain
It pulls on strings like falling in love
Instant love, instant love

You said I feel no pain
Where are you going
With the number three

A star fades out of my heart
But you laughed and just rolled and rolled over
Everything slowly goes
You said you knew and that's what you wanted

If time gone is history
Then this is a victory
A victory worth losing for you
To get what you need [x3]
