Tonight  
You take of part of my life

Only lovers are left alive  
Only lovers are on my side  
Wasted days and wasted nights  
Cause my dreams to slowly die

Stand by me  
Stand by my side  
Change you love and make it mine  
With your arms around me  
I'm satisfied  
Take me to your music  
I'll come inside  
Tonight  
You take a part of my life

Take that trip  
Forget the world  
Find those girls all made of gold  
I've done a lot of things I know are wrong  
So please forgive me  
Before I'm gone

Tonight  
You take a part of my life
