"Christine"

Christine - Still walking at me
Still talking at me
Christine - Such a sense of loss
and the baby cried
Christine
Christine

And the whole world dragged us down
The whole world turned aside

Christine - You're in deep, pristine
- With a god-like glow
Christine - Christine - Heart and the glory and me
Chaos and the big sea

Christine - Still walking at me
Still talking at me
Christine
Christine
Christine

And the whole world dragged us down
Not a sonnet not a sound
And the whole world turned aside
The cruelest hand just turned an eye
