This satellites lost,
Where has the fire gone
Down deeper he knows,
There's
Still a chance to find it
But should he stay lost,
You are the reason you are the
Cause
This satellite's lost,
But I know that he wants you

I know you're there,
I can
Hear you breathe
It only takes a minute
To get yourself lost watching the day
Dissolve
Down deeper he knows,
There's still a chance to find it

I know you're there,
I can hear you breathe
It only takes a minute
And though you're there you can surely
Leave
It only takes a minute
Oh no

Nobody's gonna wait for you
