Breathe again, Delilah's gone
Upped and took the piano(
Oh you and I have never been older(
Oh you and I have never been older

Sure as I was standing there(
She was mine until I cared(
Oh you and I have never been older
Oh you and I have never been older((

How can you say you are lonely(
Oh when you've got my baby?

Call off the fire you owe me
And breathe again((
Certain times define a face
So I'm left to kiss a trace

Breathe again, Delilah's gone(
Breathe again, Delilah's gone((
How can you say you are lonely(
Oh when you've got my baby?((

Oh when you've got my baby?(
Call off the fire you owe me(
And breathe again
