"All Night Long"

Visit "[All Night Long](#)" on MotoLyrics.com

All of a sudden it hit me
And knocked me down where I stood
I tried to get up and get out of that place
But it didn't do any good
Now, I remember being her prisoner
And I remember it feelin' pretty good
And then she took it further
And after that, brother
We were keepin' up the neighborhood

She spent all night long lovin' me
She spent all night long kissin' me
We did everything from A to Z
She spent all night long lovin' me

I never even saw it comin'
I never did feel the sting
You'd think a thing like that would make some kind of
sound
But I never heard a thing
I started in to buzz all over
All the way down to the bone
She taught me things about a woman
That I'd a never figured out on my own

She spent all night long lovin' me
She spent all night long kissin' me
We did everything from A to Z
She spent all night long lovin' me

She spent all night long lovin' me
She spent all night long kissin' me
We did everything from A to Z
She spent all night long lovin' me
She spent all night long lovin' me
Yeah
