"I Had A Real Good Time"

Visit "[I Had A Real Good Time](#)" on MotoLyrics.com

Well, I love this life but it's doing me in
Just in case I don't ever see you again

I had a real good time

I love the wine

The women and song and the carryin' on

I had a real good time

I been around the block a time or two

'Round every corner there's somethin' new

I had a real good time

I just love the wine

I love the women and song and the carryin' on

I had a real good time

There's a big ol' world of opportunity

For a man that sings the blues

You learn a whole lot more about life

From the things you're not supposed to do

I got a way with women keeps 'em coming around

That's the kind of thing you don't turn down

I had a real good time

I love the wine

The women and song and the carryin' on

I had a real good time
