Saw you, that was all I had to see  
Wanted you, had to have you next to me  
From that moment, I knew that you'd be all that I'd ever  
need  
And there's a place inside my heart, nobody's touched  
before  
And when I found you, I found all that I've been  
searching for  
You turned my world around  
All I know, is it feels like forever  
All I know, is I love the way it feels  
All I see, is how good we are together  
And I never want to see you slip away  
I'll never let you go, it's all I know  
Hold me, love is you've rushed to me  
It's telling me, let's put our hearts in the hands of fate  
Time will tell, if what we've got was worth the wait  
And there's a fire, that's been burning deep inside of  
me  
And I don't need nobody else  
'Cause now you're here with me, you turned my world  
around  
All I know, is it feels like forever  
All I know, is I love the way it feels  
All I see, is how good we are together  
And I never want to see you slip away  
I'll never let you go, it's all I know  
I might of never met you, in another time and place  
Now I never could forget you, I can never walk away  
It's all I know  
Cause there's a place inside my heart, nobody's ever  
touched before  
And when I found you, I found love the love that I was  
searching for  
You turned, my world around  
All I know, is it feels like forever  
All I know, is I love the way it feels  
All I see, is how good we are together  
And I never want to see you slip away  
I'll never let you go, it's all I know
