I watch you come in here
Night after night
You sit over in the corner
Where there aint no light
You got a beautiful smile
But you dont have fun
Somethin about you baby
Been left undone

Chorus:

Youve been over here in the dark so long
I aint no doctor, but I know whats wrong
You never been rocked enough
You never been rolled just right
You act tense and nervous
You know Honey, youre too uptight
You never been rocked enough
You never been rolled just right
My time is your time baby
And baby Ive got all night
I dont pull no punch
I dont play no games
It aint none of my business
But it seems a shame
Now I cant hold back
I got to speak my mind
You look like a woman
That needs a real good time
(Chorus)
