Prowling in the night, hiding 'neath my fright
Manipulate my sigh, thief

Whenever you steal, my punishment's real
You gave me sorrow

Invading my own value, parading my shy security
While gripping my innocence, thief

Whenever you steal, my punishment's real
You gave me sorrow
Sorrow, sorrow, sorrow, sorrow

Whenever you steal, my punishment's real
You gave me sorrow

Whenever you steal, my punishment's real
You gave me sorrow
Whenever you steal, my punishment's real
You gave me sorrow

Whenever you steal, my punishment's real
You gave me sorrow
