Situation's been declined  
What is yours is yours is mine  
Keep the steady income low  
'Til they got me to shine (and shining so)

What is wrong with wasting all you've got to show?  
What you're worth is what you know  
To them  
(Got me defying, magnifying)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy

Taking lessons, taking time  
Lose yourself in petty crime  
No-one else to fear and time to grow  
(Up and climbing, climbing so)

If I feel like having someone make my day  
I'll find someone, make him pay today  
(I've been trying, terrifying)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey

(High juice in my mouth)  
(Easy as a crosstown)  
(Easy now is never how)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy

(Tin sounds all around)  
(Cleaner in the morning)  
(Clearer now they can't be found)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy

Take a walk and try to learn  
Precious time with precious sound  
Who's to say there's none to send?  
(Getting the lyrics, lyrics so)

What is wrong with wasting all you've got to show?  
What you're worth is what you know  
(I'm not clearer, never freer)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey

(Pictures in my ear)  
(I can make it nicer, I can make it sound clear)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy

(Young hands flying by)  
(Easy on the uphill, faster down the bullet sky)

Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy  
Hey boy, hey boy

In time we'll end this session  
I'm making plans for new attentions  
In time we'll start to question  
But for the moment I'll hold my mention  
Hold my mention  
Stop
