So she said,
Far enough.
Far enough is here.

Homeward bound,
Pieces found,
Rest is all you need.

Saw a girl, she was taking a walk,
She was looking round for someone else,
She was hiding from everything,
Even scared of her own reflection.

This is how it feels to drown
This is how we come undone.

When you just cannot remember
How you came by the memories that you have
These are days that go on too long,
These are days that you really don't want to last

This is how it feels to drown
This is how we come undone

Take me back, the sky and the earth
Just relax, for what it is worth
I love you, dear.
I will hold you near.

Why am I not questioning,
Why am I not running from all I know?
All I know is forgotten now.
I think my circle is about to close.

This is how it feels to drown
This is how we come undone.

Take me back, the sky and the earth
Just relax, for what it is worth
I love you, dear.
I will hold you near.
