"Darius's Farewell"

Sometimes
You try hard but your efforts seem swallowed
At the right time
A talent shines and it fills this hollow
Laugh when you're winning, smile when you're down

We've learned from this, I've learned from you
I have won this already

Li la la li, li la la li
We were strangers in life
Li la la li, li la la li
Now we're friends in strife
Li la la li, li la la li
Now please, no more cries
Li la la li, li la la li
Li la la li, la la la la la li li
Li la la li, li la la li
Li la la li, la la la la la li li
La la la la la li li, la la la la la li li
