So what's it all about?  
I can't work you out...  
There's a chemistry between us Getting hard to  
disguise -  
Still you're holding back,  
Some kind of panic attack -  
Treading water when you  
Really should be turning the tide...  
Don't spend a lifetime waiting,  
Don't tell me no -  
Just let go...  
If you want it, then you got it -  
Don't let this moment pass you by,  
Take a long shot,  
Give it all you got -  
You'll never know unless you try,  
You can only sink or swim,  
Baby, just dive in...  
So what's the worse thing  
That could be happening?  
(You test the water and you  
Find that it's a little too hot)  
But I'm imagining,  
The taste of salt on your skin -  
Make your move, you gotta choose - Are you ready or  
not?  
Don't waste a lifetime waiting,  
You know it's now -  
So turn around...  
Chorus  
Just dive in, just dive in...  
Let's dive in -  
Into the blue; Into the deep;  
Into the mood tonight  
Dive In...  
Chorus  
  
Come with me -
