So many times we find ourselves here -  
Looking just about anywhere  
But in each others eyes,  
I'm wondering why...  
So many chances brushed then wasted,  
So many matches almost won in injury time -Nobody  
cried...  
We're kicking pieces out of each other,  
Instead of kicking the pain in our hearts -  
Where do we start?  
Chorus  
Well we can reach,  
And we can climb,  
And we can turn this ship around in time -  
That's why I'm holding out for you  
I'm not buying that it's over  
You can tell me anything  
But I'm not buying that it's broken.

So many fixes come too easy,  
Leave us so unsatisfied -  
Chasing the kite, addicted to high...  
So many patches we have worn,  
So many promises left still born We're so blind, we kill  
more  
Than time  
Intoxicated, drowning each other -  
Instead of drowning the pain in our hearts...  
Where do we start?

Chorus

We'll walk with innocence  
We'll leave the ignorance  
We'll run together, let's break this silence...  
Don't wanna fight no more,  
Wanna feel the light some more,  
Let's run together and break this silence...  
I'm holding out for you,  
Reaching out for you,  
No way that this is through -

If we just If we just  
We can reach, we can reach  
We can reach,  
And we can climb,  
And we can hold on by our feelings to what is right.  
I'm holding out for you,  
I'm not buying that it's over,  
I'm holding out for you, reaching out for you, no way  
that this  
Is through  
You can tell me anything,  
Sell me anything,  
To hell with everything,
