Weâ€™re not alone if we dream together
Of the good times
We got through cos we wonâ€™t surrender
Head on my shoulder, glass of red wine

If we left the night behind (?)
We have won this already

Li la la li, li la la li
I watched you reach for the sky
Li la la li, li la la li
Chrysalis to butterfly

Sometimes
You donâ€™t win gold, you donâ€™t win silver
At the right time
Youâ€™ll find bronze makes you the winner
Tears running freely, and I dry from your cheek

If you left the night behind (?)
You have won this already

Li la la li, li la la li
I watched you reach for the sky
Li la la li, li la la li
Chrysalis to butterfly
To butterfly
Kiss your lips and watch you fly, my butterfly
Chrysalis to butterfly

Itâ€™s bedtime
Emotions chase us, our dreams will follow
Itâ€™s a good time, mmm
For me to give you the strength I borrowed
Sigh when I hold you, last drop of wine

If you left the night behind (?)
