Better take it slow
Feel the shadows flow
You've been watchin' her for oh so long
And it shows

Better take it slow
Feel the shadows flow
You've been watchin' her for oh so long
And it shows

When you reach the?
When you see the?
Let her lead the way
She will reach for you
She will teach you love
She will touch your mind

Let the? take away the pain
Make it feel alright
In the? talk to me again
Make it feel alright
Make it feel alright
Make it feel alright
Make it feel alright
