

Delirious? "Heaven"

Visit "[Heaven](#)" on MotoLyrics.com

I've walked down a road where the devil's been
Where the kids have seen things they should have
never seen
And the ancient stone knows the deeper tale
About a bloody game they call the holy war
That's where I want to be
Heaven is my home
And there'll be no shame
I've walked down a road where the angels been
Where the kids have seen things that we never have
seen
And the ancient stone knows the deeper tale
About a bloody king who won the holy war
Heaven is my home
And there'll be no shame to bear
Heaven is my home
And there'll be no refugees
Heaven is my home
And there'll be no shame to bear.
