Take me or leave me  
Don't have to believe me  
All the words I have to say  
All the songs that fly away  
Take me or leave me  
Believe me good will come  
It's OK, you know I'll live to fight another day  
It's OK, you know I'll live to find another way  
She's as pretty as hell and her eyes have no home  
The beauty has run from your face  
Such beauty that hung from your face  
And if you would drink this wine, you'll shine  
It's OK, you know I'll live to fight another day  
It's OK, you know I'll live to find the words to say  
It's OK, you know I'll live to find another way  
And if You would give me holy wine, I'll shine  
Shine on me  
It's OK, you know I'll live to find another way  
It's OK, you know I'll live to find the words to say  
It's OK, you know I'll live to find another way  
Will you come to me like a summers day  
I will sing again.
