And how I've loved
And I've served
And I've sinned
But I have learnt
As long as you are true to the life that you live
This is the time to feel love

I feel a stirring deep within
Slowly picking up momentum
Like the tide coming into shore
Over and under in its course
This feeling emblazed inside
Every nerve like a firefly
Hovering above me
Glow
glowing, divine

Every nerve like a firefly
Every nerve like a firefly
This feeling emblazed inside
Every nerve like a firefly
I never want to lose
what I have finally found
There's a requiem, a new congregation

And it's telling me
Go forward and walk
Under a brighter sky
Every nerve glowing like a firefly

Every nerve like a firefly
Every nerve like a firefly
Glowing
I feel a stirring deep within
Slowly picking up momentum
Like the tide coming into shore
Over and under in its course

I never want to lose
what I have finally found
There's a requiem, a new congregation

And it's telling me
Go forward and walk
Under a brighter sky

Every nerve glowing like a firefly
Glow, glow divine
Glow, glow divine
Every nerve like a firefly
Glowing
Every nerve like a firefly
Glow, glow
