What I gotta do let y'all niggaz know?
I am +THE NICEST+ +EVER+ heh
Hardcore? Commercial?
Whatchu wanna do, you wanna wile up, you wanna
dance?
Don't matter to me, I got it all locked down baby

It's not a game it's war, plain and raw
Blood stain the wall, when I bring the chain with the saw
Bring the pain to your door like death was knockin
Unless you got my ends, I'ma make you twins with the
Headless Horseman
Hell extortion, sell your soul, live your dreams
Don't pay the cost thenbam bamsay hello to the
guillotine
A killer fiends for blood, screams of thugs like
Fiends for drugs, I don't need no love
Give me your fear, murder, respect, beer, honies and
sex want here
I'll bend them checks for years, hungry and stressed
You fuckin with Chris - fuck Pun - dead the wrath for
later
Get your calculator, go 'head Decapitator's back
forever
Can't count how many heads I had to sever
Half the niggaz I keep, I put em back together
That's the terror, cut open your girl
And make a truss out her flesh, like Buffalo Bill
You fuckin with reel to reel, rap axe maniac
Sound bwoy killer, hack hack chain-react
Two for one - double the death, same price
What would Big say? "Huh, you know that ain't right"

It's not a game pah sample
We're gettin paid hah sample
It's still T. Squad sample
"What you came for? Surgery, with the chainsaw!"

Watch what happens to your friend
You don't want this to happen to you
You give me the money, okay?

Word to 'Pac and Big, my glock so big it can rock a
bridge
Drop the midsection like the top of your wig
Ain't no bullshittin, gettin the full treatment
Special two heated missles, 'til your crew's leavin
withu
I rip you in half - blast that ass through a glass window
Laugh a little (HA HA) and dash in the S-Class limo
That's how we do it in the South Boogie
Where tough rough rookies get snuffed out, for talkin
loud to me
Why should I even consider your crew? Shit on your
crew
Get rid of your crew, what I'm fittin to do
I split you in two, leave you impaired when I blast the
shotty
Grip you like dope and leave you there with half your
body
We Rowdy like Roddy, probably robbin your stash
Catch a body like Charlie up North, stashin knives up
my ass
Survivin the task, we the last ones left
Blast them tecs with clips, fast as fast'll spit
Add some tips for any, bastard bitch, pappin shit
Watch me rep til the death from the bassonet, beotch

It's not a game pah sample
We're gettin paid hah sample
It's still T. Squad sample
"What you came for? Surgery, with the chainsaw!"

Watch what happens to your friend
You don't want this to happen to you
You give me the money, okay?
