Ever since you went away
Every day
It's just a cloudy day
And I don't know
If it's rain from the skies
Tears from my eyes
Fallin' on-a my face
And rollin' down my cheek

Hurry back and bring the sun
Let me be
You're one and only one
With just one kiss
Stop the rain from the skies
Tears from my eyes
Fallin' on-a my face
And rollin' down my cheek

All I know is
I love you and
If I live forever
I'll be loving you still
You will always be just
Everything to me, so

Hurry back and bring the sun
Let me be
You're one and only one
With just one kiss
Stop the rain from the skies
Tears from my eyes
Fallin' on-a my face
And rollin' down my cheek

Rollin' down
Rollin' down
Rollin' down my cheek
Rollin' down...
