She goes down to make breakfast
The machine spins round
He reads the morning paper
On the bus to town
Although they live together
And they are counterparts
Don't rock the boat
Upset the applecart

Dreams seems so exciting
When you're duty bound
Working for the company
Trying to earn a pound
Lousy English weather
Together yet apart
Don't rock the boat
Upset the applecart

Freedom
Once upon a moment
Flashes of sensations
Thrill of inspiration
Time stands still for no one
Age is just a number
Pages in your story
Liaisons con amore
So it is no wonder
Watch the days just fly by
Point me at the highway
Have to do things my way
Blowing chances bye bye
Everything is allright
Once upon a moment

Aaaah aaah

The silence between them
Makes the loudest sound
Thinking it's the wavelength
Turns the radio down
They hardly know each other

And they don't know where to start
Don't rock the boat
Upset the applecart

Freedom
Once upon a moment
Flashes of sensations
Thrill of inspiration
Time stands still for no one
Age is just a number
Pages in your story
Liaisons con amore
So it is no wonder
Watch the days just fly by
Point me at the highway
Have to do things my way
Blowing chances bye bye
Everything is allright
Once upon a moment

Don't rock the boat
Upset the applecart

Don't rock the boat
Upset the applecart

Don't rock the boat
Upset the applecart

Don't rock the boat
Upset the applecart
