It's complicated, when love has faded
And you can't hold on anymore
You gotta let go even though you know
Your heart's gonna hate it
And it just might break it

[Chorus:]

You never stop loving somebody
No matter what you tell yourself
You never stop loving somebody
You just, start loving somebody else

The only solution, is making the conclusion
That it's just another lesson in life
Even though it's over,
it's never really over at goodbye

No matter how hard you try

[Chorus:]

You never stop loving somebody
No matter what you tell yourself
You never stop loving somebody
You just, start loving somebody else

No matter what you say or what you do
Even when you find somebody new

[Chorus:]

You never stop loving somebody
No matter what you tell yourself
You never stop loving somebody
You just, start loving somebody else

Start loving somebody else
