(feat. Brian McFadden)

Did I hear you right
'cause I thought you said
Let's think it over
You have been my life
And I never planned
Growing old without you

Shadows bleeding through the light
Where the love once shined so bright
Came without a reason
Don't let go on us tonight
Love's not always black and white
Haven't I always loved you?

But when I need you
You're almost here
And I know that's not enough
And when I'm with you
I'm close to tears
'cause your only almost here

I would change the world
If I had a chance
Oh won't you let me
Treat me like a child
Throw your arms around me
Oh please protect me

Bruised and battered by your words
Dazed and shattered how it hurts
Haven't I always loved you

But when I need you
You're almost here
And I know that's not enough
And when I'm with you
I'm close to tears
'cause your only almost here

Bruised and battered by your words

Dazed and shattered now it hurts
Haven't I always loved you

But when I need you
You're almost here
Well I never knew how far behind i'd left you
And when I hold you your almost here
Well I'm sorry that I took our love for granted
And now I'm with you I'm close to tears
'cause I know I'm almost here
Only almost here
