"Days Go By"

It's been a long road we've walked together
Somehow we made it through this crazy year
People were talking, we didn't listen
They tried to hold us back but we're still here

They said that like two falling stars we would go down
fading fast
But no one could put up the light when we knew it would
last

Days go by and you're still by my side
With all we've been through you're the one thing that's
true in my life
Days go by, you're sure as the sun will rise
Being together we only get better with time
As days go by

I know that nothing could come between us
When love is real it never goes away

And nobody could shake us or brake us from what we
both could see
And now we look back on the past full of beautiful
memories

Days go by and you're still by my side
With all we've been through you're the one thing that's
true in my life
Days go by, you're sure as the sun will rise
Being together we only get better with time
As days go by

And the world it keeps turning and turning
I'm learning that everything in life must change
But I still feel the same

As days go by
And you're still by my side
Making forever together one day at a time
As days go by, you're sure as the sun will rise
Making together forever one day at a time

As the days go by
As days go by, as days go by
As days go by
