World is calling,
Patience falling,
Distant dreams and thoughts of you.
Time is wasted,
Far off places,
Wish I could fly and be with you.

BRIDGE:

No time for sentimental thoughts in my head.
Do you keep me in your dreams?
Do you hear me calling, hear me calling?

CHORUS:

When I go there,
I search the stars,
To see your face within the stars,
I love this place and I know why,
Your always there,
In my mind,
Buy I wish,
That I could hear,
Your silly voicing in my ear,
Hold your hand and hold you near,
And if I fall will you hear me call?

Makes me wonder,
This spell I'm under,
Trapped inside me will I be true?
So much to see,
Where will I be?
My world is changing and I change with you.
