I fought for you
I went to war in a battle of two
And in many years in solitary
I'm captured by the enemy

I tried, I tried
Everything just to survive
I'm living the life of someone else
Who wouldn't even save himself

What did I know
I had my eyes closed for what it seemed like an eternity
Hungry eyes were preying on me
But didn't you know, I wanted to go
I know you saw them wanting me
And now I love them dangerously

The wolves come out, circling me
The hunters hunt, stamping their feet
I'll play my game of hide and seek
But who will it be
Who will it be
Now that I'm free
Let the wolves come and get me

I know for sure
I'm ready now for so much more
And I'm not gonna fight it
This temperature is rising

I feel tonight the rhythm from the inside out
Or is it just the someone who I want so bad instead of you

He makes me feel like my body's alive
On fire with the wonder, reminds me I'm a lover
Cause your own pain is driving me insane
It's killing me to tell you this
But you'll hear it and you'll know it's true

The wolves come out, circling me
The hunters hunt, stamping their feet
I'll play my game of hide and seek
But who will it be
Who will it be
Now that I'm free

Let the wolves come and get me

Come and get, come and get, come and get me
Come and get, come and get, come and get me

The wolves come out, circling me
The hunters hunt, stamping their feet
I'll play my game of hide and seek
But who will it be
Who will it be
Now that I'm free
Let the wolves come and get me
