I hear your voice so loud and clear
Each time I hear the wind blow
I can still feel you by my side
Even when you're far away

When you're feeling all alone
A million miles away from home
When there's no one there who understands you
I do

Close your eyes and I'll be with you
Every day you know I'll miss you
Our love's like a song, it never fades away
So even when I can't be near you
Somehow I can always hear you
Love is like a song, it never fades away
Just never fades away

Sometimes the different paths we choose
They make us go the wrong way
They always lead me back to you
And you know it won't be long

'Cos I'm right there where you are
Even though it may seem far
When there's no one there who understands you
I do

Just close your eyes and I'll be with you
Every day you know I'll miss you
Our love's like a song, it never fades away
So even when I can't be near you
Somehow I can always hear you
Love is like a song, it never fades away
Just never fades away

Through the distance and the sacrifice
Love never dies
And it goes on and on and on
I know your hear me...

Just close your eyes and I'll be with you
Every day you know I'll miss you
Our love's like a song, it never fades away
So even when I can't be near you
Somehow I can always hear you
Love is like a song, it never fades away
Just never fades away
It never fades away
