Here we are  
Sharing our lives  
We made it through  
The good and bad times

And still we stand  
With hope in our hearts  
No matter what  
We will play our part

And now we've come so far  
One chance to touch a star  
Go higher... and higher

Find your guiding inspiration  
In a place where dreams are made  
With a lifetime's preparation  
It's no time to be afraid  
Put our differences behind us  
For we shine like the sun

Together we are one yeah...  
Put our differences behind us  
As we shining like a star..  
Together we are one...

See what we've all become  
Together we are one

Deep inside your heart and soul  
You work so hard  
To reach your goal  
With every step  
Without regret  
You gave it all  
Till there was nothing left

Seek out the strength to win  
No thoughts of giving in  
Go higher... and higher

Find your guiding inspiration

In a place where dreams are made  
With a lifetime's preparation  
It's no time to be afraid  
Put our differences behind us  
For we shine like the sun

See what we've all become  
Together we are one

Together we are one  
We are one

Find your guiding inspiration  
In a place where dreams are made  
With a lifetime's preparation  
It's no time to be afraid  
Put our differences behind us  
For we shine like the sun

See what we've all become  
Together we are one  
Find your guiding inspiration  
In a place where dreams are made  
With a lifetime's preparation  
It's no time to be afraid  
Put our differences behind us  
For we shine like the sun  
See what we have all become
