It's in my head  
It's a relief  
The sweet sound that I don't want to leave  
Kickin' around in the back of my mind  
It stays there and just won't let me be

Meet me on the other side  
Meet me on the other side  
Well I can't be honest with myself  
No, I wouldn't believe a word I say

Put up a wall  
I've been climbing up the wall  
To an end and still I can not see  
Tell me I'm wrong  
Tell me if I'm wrong or right  
Tell me so I can let this be

Meet me on the other side  
Meet me on the other side  
Well I can't be honest with myself  
No, I wouldn't believe a word I say  
[x4]

I can't be honest with myself  
No, I wouldn't believe a word I say  
I can't be honest with myself  
No, I wouldn't believe a word I say
