Life can seem strange to you
and lies can be told to give you things
that you can rely upon
let those pills flow through you
Can you hear me?
Iâ€™m talking to you
itâ€™s me calling from heaven or hell
donâ€™t care â€™cause itâ€™s all the same to you
Do you feel the same as we feel?
And do you see the same things that we see?
Are you leaning out your world now?
Would you get into our world now?
Are you coming back?
Wonâ€™t you come right back?
Youâ€™ve been living in you own world,
youâ€™ve been missing all our sweet words
Are you coming back?
Wonâ€™t you come right back?
Lies don't seem strange to you
and life can't be taught
we'll give you things that you can't deny
so just let those pills flow through you
Can you see me iâ€™m talking to you
itâ€™s me coming from heaven or hell
donâ€™t care â€™cause itâ€™s all the same to you
