One for my flowers two for my pain  
Three for the things that drive me insane  
Iâ€™m just as scared as you â€™bout or lives  
Iâ€™m maybe mad but still amazed  
Do anything dig any hole in the ground  
To forget me just below you  
Iâ€™m anything i sowed the seeds and the words  
That youâ€™ll never of a poem  
ever know Iâ€™ve been stretching my bones  
trying to catch all those words  
they say desire sometimeâ€™s bigger  
than hurt  
Even a second can last as long as you feel  
Iâ€™ve walked through fire while you were walking  
through me  
Show me a sage one and i will follow no other  
Show me the rivals and iâ€™ll be killing no other  
Show me someone whoâ€™s not even to blame  
One for my present two for my past  
Three for the sweet things that cannot last  
Iâ€™m just a threat to the allmighty  
Iâ€™m kind of sad but still amazed  
Do anything drag any rock from the earth  
To forget me just below you  
Iâ€™m anything and find the lines of the  
That youâ€™ll never poem that i wrote  
ever know Iâ€™ve been freezing my bones  
to remeber the words  
i used to know  
and i used to forget  
Even a second can last as long as you feel  
Iâ€™ve walked through fire while you were walking  
through me  
Show me a sage one and i will follow no other  
Show me the rivals and iâ€™ll be killing no other  
Show me someone whoâ€™s not even to blame  
Hear the mermaids hear them sing  
Hear them talk of anything  
Hear the stories that youâ€™re told  
Hear the lies that have been sold
