Yo, it's 3030, I want y'all to meet Deltron Zero
Hero, not no small feat, it's all heat in this day and age
I rage your grave, anything it takes to save the day
Neuromancer, perfect blend of technology and magic

Use my rapping so you all could see the hazards
Plus entertainment where many are brainless
We cultivated the lost art of study and I brought a
buddy
Automator harder slayer fascinating combinations

Cyber warlords are activating abominations
Arm a nation with hatred we ain't with that
We high-tech archaeologists searching for knickknacks
Composing musical stimpacks that impacts the song

Crack the motor what you think you rapping for?
I used to be a mech soldier but I didn't respect orders
I had to step forward, tell them this ain't for us
Living in a post-apocalyptic world morbid and horrid

The secrets of the past they hoarded
Now we just boarded on a futuristic spacecraft
No mistakes black it's our music we must take back
Yo, it's 3030

I want y'all to meet Deltron Zero and Automator
Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator
Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator

Del, I'm feeling like a ghost in a shell
I wrote this in jail playing host to a cell
For the pure verbal, they said my sentence was
equivalent to murder
Kust another hurdle, I bounced through a portal

I knew they had the mind state of mere mortals
My ears morphed to receptors to catch ya
Every word about gravity control
And the families they hold for handsome ransoms

On the run with a handgun, blast bioforms, I am
warned
That a planet-wise manhunt with cannons
Will make me, abandon, my foolish plan of uprising
Fuck dying, I hijack a mech

Controlling with my magical chance so battle advance
Through centuries of hip-hop legacy, mega speed

Hyper warp to Automator's crib and light the torch
They can't fight the force

Victory is ours once we strike the source
Enterprising wise men look to the horizon
Thinking more capitalism is the wisdom
And imprison, all citizens empowered with rhythm

We keep the funk alive by talking with idioms
Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator
Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator

Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator
Isn't eternal evil concerned with thievery
Medieval prehistoric rhetoric well we ahead of that

Lay it down with sound waves that pound pavement
Original minstrels my central processing unit
Is in tune with my heart for this art
Not artificial 'cause that makes it hard to miss you

Copcats finish last in the human race
Staying glued to safes too rude to take a buddah
break
We got espers that let us bless with fresh shit
Undetected by yes men questing for five fleeting
nanoseconds of fame

Protecting the brain from conspiracies against my
cosmos
While I float to Neo-Tokyo with Opio
Or discuss combustible rust clusters with Plus
Evade cyber police in a computer crib confuse the kids

But I can make a kicking rhymes thats sacred
Telepathic mind that takes its greatness from the
Matrix
Esper rhyme professor rushes in ultra pressures

With correction measures

Why half the world's a desert
Cannibals eat human brains for dessert
Buried under deep dirt, mobility inert
I insert these codes for the cataclysm

Ever since I had the vision use my magnetism
In this modern metropolis they tries to lock us up
Under preposterous laws that's not for us
Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator

Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator
Yo, it's 3030, I want y'all to meet
Deltron Zero and Automator
