From an unknown land we rise  
To kill the new world for power  
To search and destroy

We search and destroy  
The time has come  
The Dark Chronicle has begun

The time will stop  
When we have reached the apocalyptic top  
When we have reached the apocalyptic top

The time has come  
The Dark Chronicle has begun

The time will stop  
When we have reached the apocalyptic top  
When we have reached the apocalyptic top

The time has come  
The Dark Chronicle has begun

The time will stop  
When we have reached the apocalyptic top  
When we have reached the apocalyptic top

Search and destroy...
