Crazy as a lover
But there?s no other crazy as me
The movement in my brain
Could makes feel so high or deep in the sea

Bring me illusions
Sell me solutions
Please, make this stops now
?Cause I?m almost fallin? down
I?m almost fallin? down
I?m almost fallin? down

I am remembering
All those sad feelings and all those knocked doors
And for sometime I thought
Days never gonna be as they had been before

Estribillo

How much more more I?ll have to wait?
How many times I?ll have to phone?
Too much time being alone
Please come now, make this stops

I?m almost fallin? down
I?m almost fallin? down
I?m almost fallin? down
