Well, shoot your gun
We're not gonna live forever
But I won't be there
When the sun goes down

Who wants the war?
Who wants to be hated?
Why don't you spread
Oh! Your love around the world

Sorry if I thought
Things could be really better
I'm gonna lock the door
And throw away the key
I say goodbye
And I say it forever
Goodbye (to) everyone

So that's the way
somebody made it for us
Now I don't mind
If there's peace on earth

I lost my faith
And every year is getting shorter
Why don't we give
All the love we never show
