As soon as you're born you begin
Learning some of the rules
Then you have to wait just some years after going to
school
The more you learn the less that you know
But now, watch out boy! You must keep on alone

If you'll succeed or you won't
Boy that nobody knows
Maybe your car will be big or perhaps will be small
This is the time when you pick a career
But do you know what you do the next year?

You'll have to wait
It isn't really easy to find a job

You won't have time
And you won't see things clearly
They'll put you down
Trying to have some fun but
You need more time
To find another places
You will have to work to get money enough
You will have to work to find your own home

If you'll succeed or you won't
Boy that nobody knows
Maybe your car will be big or perhaps will be small
This is the time when you pick a career
But do you know what you do the next year?

You'll have to wait
It isn't really easy to find a job
