Keep your way
you shoudn?t mind
If everybody wants to put you down
To put you down

If you feel you get lost
Everybody wants to hurt you
And you?re not so strong

Make it better, better, better
Make it better baby
Make it better, better, better
Make it better now

Little boy, don?t be sad
Everybody wants to see you glad
To see you glad

Look around, nothing?s changed
Everybody seem to feel the same
To feel the same

Make it better, better, better
Make it better baby
Make it better, better, better
Make it better now
