Nothing but talkin'  
I beg my pardon for not begging pardon  
Walk in the store  
Close all the doors  
They know I am a very big copper like the warden  
Matter fact you should award him  
You should support him for being so important  
Shh! Do you hear the applaudin'?  
Camera recording? Roll out the carpet  
Back in the spotlight  
parallel parkin'  
And I do not have time for the jargon  
I hop on records, tend to break records  
G.O.O.D. Music what you think I'm signed to the best  
for?  
I mean I ain't really trying to trip  
But what you mean "show'em Jay" you can't tell me shit  
Let my money stack  
To a hundred stacks  
Times a hundred stacks  
Times a hundred that  
Yeah, times a hundred that  
Yeah, times a hundred that  
Keep it coming, coming, keep it coming  
Keep it coming, coming, keep it coming  
Yeah, and times a hundred that  
See I'm just trying to let me money stack  
To hundred stacks  
Times a hundred stacks  
Times a hundred that  
Beast  
Got his bread up without yeast  
Man the least I could do is not lease  
So I paid of a bill  
Imagine how I feel  
Say my graces to the bank because I'm working on the  
mill  
The hotels I check in with hoes I will check out  
And I'mma get to sexing until a nigga sexed out  
So let my money stack  
To a hundred stacks  
Times a hundred stacks

Times a hundred that  
Bape shit? Got it  
BBC? Got it  
Pastel? Got it  
Before he even dropped it  
Four chains on  
Yeah I be on that Paul shit  
Jesus piece too  
twenty thousand  
You do not got this  
You cannot afford it  
You cannot stop it  
Might as well support it  
Let my money stack  
To a hundred stacks  
Times a hundred stacks  
Times a hundred that  
Yeah, times a hundred that  
Yeah, times a hundred that  
Keep it coming, coming, keep it coming  
Keep it coming, coming, keep it coming  
Yeah, and times a hundred that  
See I'm just trying to let me money stack  
To a hundred stacks  
Times a hundred stacks  
Times a hundred that  
Yeah, times a hundred that  
Yeah, times a hundred that  
Keep it coming, coming, keep it coming  
Keep it coming, coming, keep it coming  
Just trying to let me money stack  
To a hundred stacks  
Cause I'm FF
