Motherfuck my opponent,
started with a vision and a nigga got on it
Met success and a introduced it to my homies,
now every single girl in the room gon want us
Hell yeah I hope they hearing us
I'm the one with the beef, broccoli, and asparagus
Tell them rich folks they can couple up a chair with us
They can sure brag, but I know they can't embarrass us
And mother fuck the opposition (fuck) your bitch wanna
make a proposition
Remember when a nigga barely had a pot to piss in,
now im on my paper
Mr. composition (what, what?)
Excuse me, What? Competition? What?
To me that word is non- existent
And he sound like uhhhhhhh
Quit comparing me bitch
Fuck you with a Ron Jeremy dick
Hell yeah I'm apparently pissed,
sonnin niggas
I could give a parenting tips
, I'm too good to really care about shit
Cause I'm young with money like I inherited it
Mother fuck my opponent, started with a vision and a
nigga got on it
Met success and a introduced it to my homies, now
every single girl in the room gon' want us. (X2)
