Oh shit i'm finally famous
And i'm rolling with the mother fucking top down
How can you blame us?
I wanna break you off like right now

Old time millionaire
I wanna break you off like right now
I wanna break you off like right now

Hell yeah nigga high right now
That's the reason I said hi right now
Had the time of your life right now
All you gotta do is close your eyes right now
This shit classic, they ask where your outfit from

Please... first class
Only culture games and practice
Oh you athletic? Shit, show me on the mattress

Cause it's already night time
And I feel like the right time
Twisted on my fingers
Like the young PAC, BIG but she just call me DAD
I do it

Oh shit i'm finally famous
And i'm rolling with the mother fucking top down
How can you blame us?
I wanna break you off like right now
