Whoa, Oh
Same ol' me, but everything around me new
Made it to the roof and still stuck to my roots
Livin' out the dream
Well, it might be a dream to you
But I do everything I dream, so to me it's dÃ©jÃ© vu
See everybody wanna go to big deal from no deal
To make it to the top you still gotta go uphill
Rollin' up J's, to rollin' up here with J
Crazy how my life just went from surreal to so real
Back when rapping, school was a main contemplation
'Ye took me to the Grammy's, we had that conversation
Say, "You don't make it this far doing no kind of
waiting"
And a few years later it'll lead me to my nomination
And that, that, that's worth more than a diploma
Sometimes being your own boss is worth more than
promotions
Chillin' in a spot niggas kill to get inside
Spilt so much liquor on the ground, you'da thought my
niggas died
But we inside!
