As I hop on this red eye flight with all red eyes  
Hoodie over my head, recognize a Jedi,  
If I go too fast down this road I end up like left eye  
I'm wondering would it be better if I left  
My girlfriend know I got a fetish for fine hoes  
I'm worldwide so she know I'm gonna find hoes  
Sneaking in my iPhone  
Looking through my call log  
It hurts looking at her face to ask her why she crying for  
I'm so fresh I'm wondering why I didn't design clothes  
This rap shit is something that you gotta be designed  
for  
Meetings at the label saying they goin make Sean blow  
Turned the radio on and do I hear Sean... no  
Man please do not gimmick me,  
Put me on the shelf and not remember me,  
And treat me like a John Doe  
I wish that I could drop my nuts in they're tonsils  
(Ahem) shut up bitch swallow  
And I been signed to Ye for well over a year now  
It's clear now, I'm a focus on my career now  
You taught me to create a process  
Saying that you changed my life,  
Dog it's me being modest  
But honestly I wish that I could take you off tour,  
Put you in the studio  
So you could focus more on my shit  
And I don't mean to sound selfish  
But I am not an artist that's self-less  
I'm feeling like a crab in a bucket  
That's just tryna get it crackin  
Amongst all these fuckin' shellfish...

And it's a dream come true that you signed me  
Big Sean, G.O.O.D. Music signee  
People asking me how it happened  
Man I tell em I rolex the situation & just have perfect  
timing  
And you already know where to find me  
Bitch I connected to the D like Siamese

So if you see me out of town getting money

Know I do it for my city and I be back very promptly  
So say what up if you see us  
And the D is probably rubber & the Sean man lead us?  
Like being undefeated, feeling undefeated?  
Dick so big I bust a nut for a fetus  
Glad to do any interview or dope feature  
Come holla at a nigga as I'm trying on sneakers  
Niggas making diss records in efforts that I see it  
Waiting on my reply but they never will receive it  
You are not half of what I am and can't be it  
You are just a 101% bitch  
Recognize a star like you pledge to the allegiance  
And I don't want fans, I want believers  
Race to success so I'm a keep pedalin  
Cause my mama man, she deserve everything?  
So if I find a girl with beauty and brains like her,  
Then best believe she gon get a wedding ring,  
But I don't know if I believe in love to be honest,  
Cause every girl love the headliners,  
Take her to my hotel all my niggas there,  
And best believe they gon give up all a head line-up,  
And that's why girls wanna leave us,  
Tell em where we are but they never gone believe us,  
Won't stop till we in end up on that show, Cheaters,  
But I bet you couldn't spot me if a nigga wore cheetah,  
And I be in the strip-club Teasers,  
Giving all the girls what's needed,  
Honest dog had so many problems dog  
I could hand em out and be labeled a fuckin teacher,  
So respect my hand gesture,  
I dare any nigga try and come test us,  
You a mothafuckin act dog,  
A A.C.T. that's why niggas try and test ya,  
A dub how the hell we gonna make a mil,  
Pay the bills man I ain't tryna waste a deal,  
If you could make a deal believe you could make deal,  
And if you can't keep your promises then don't say you  
will... nigga don't say you will
