Do it again and I'll see you tomorrow
I want to get it, you've got something to borrow
Give me, give me, right of my own
'Cause when I throw you on again
I buy it but it don't measure up
What is the missing ingredient?

I, I see you fade
I, I see you fade away
I, I see you fade
I, I see you fade away

Under the skin is not so easy to swallow
Don't rub me in, divide my dreams are so hollow
What is you get I don't get? I watch you fumblin' again
'Cause dream easy on your cigarette, through it, ain't
through now

I, I see you fade
I, I see you fade away
I, I see you fade
I, I see you fade away

We all find new ways being so unhuman
Try and get two heads you are unhuman
Start trying

I, I see you fade
I, I see you fade away
I, I see you fade
I, I see you fade away
