Coldness of heart, when I hear them lying
Coldness of mind, when I see them laughing
They know he steals the weakest souls
They know Jesus guzzles them all

Feed Jesus with the souls of children
Feed the bastard with the flesh of believers
Let him drink the blood from their veins
Let him quench his bloodthirstiness

[Chorus:]

God defamer - take my sacrifice
Master of lies - create eternal ways of life
God defamer - never mind their blood
Author of grotesque script - kill the nasty Jesus Christ

Their wicked words once read in the Bible
Their wicked deeds once committed on man
The ridiculous attempt of sacramental bastards
Will never endanger the mighty sons of defamers

We defame the belief in Christ
We defame the lies spread in name of Christ
We fight for the truth and freedom
We celebrate the victory when Jesus lies in blood
