"Power Of Crucifixion"

Visit "[Power Of Crucifixion](#)" on MotoLyrics.com

Crucify me bastards for being strong
Crucify me for saying my own words
Confute me, punch over my hands
Stand my cross beside your god

Jesus that loves verminized killers
God that praises for wars
All the evil he represents
Is embodied in each of you - christians!

Power of crucifixion - hang up all your sins
Power of crucifixion - hang up your conscience

Now he silently hangs with no power inside
Behold that helpless body
Watch suffering the one who promised salvation
The saviour - the master of lies

Before I die
Let my dreams come true
Before I drop dead
Let me see your god in pain

Now I contently die
Seeing the evil goes down with me
All the filth of world is gonna be taken
No reason for further lies
