Gossip (freestyle)
Hatin, go head & let em,
But you know I aint gone stop,
Don't matter wat weather,
I camaflouge, meaning 2 blend in,
I'm a beast, no hibernating,
Feel the pain dat I am sending,
24/7, dis iz real, no pretending,
U real too, ha, I'm kidding,
Thinkin u can beat me, nigga all u do iz talk hype,
Touch me and try 2 warm up, guarantee frostbites,
Cuz me, I decided to be out iced,
Mouth so froze, I don't think I can talk right,
But they know who I am, on da streets I walk bright,
They walk on the other side, cuz dey have da fear of
loss sight,
So, I guess I can't camaflouge,
But I ripped it though, man I'm hard,
I see u chokin up,
I give the game a smoking touch,
Because I blow it up,
People, mr. fresh has awoken up,
From a nightmare,
That I was attack by a monster,
Hold on da beast is right here. BOO!
